

AMF 10R

Slave Standalone Reader

SPECIFICATION

» Card Capacity	As per master machine
» Password Capacity	As per master machine
» Fingerprint Sensor	Optical Sensor
» ID card module	Built-In ID Module
» LED Lights	Three (Red, Green, Blue)
» Communication	Rs485 communication
» Connection Port	Power interface (9-12V : GND) Wiegand 26/34 Input (4PIN/1.25mm)
» Anti-pass	Implementing anti submarine operations with host
» Additional Function	Dismantling alarm function
» Touch Sensor	Supported
» Voltage	DC 12V
» Working Humidity	20% - 80%
» Working Temperature	-10°C - +60°C

Software Function

Log Capacity	AS Per Master Machine
--------------	-----------------------

Operating System	LINUX
------------------	-------

Attendance Log	AS Per Master Machine
----------------	-----------------------

Management Log	AS Per Master Machine
----------------	-----------------------

Self Test Function	Supported
--------------------	-----------

Fingerprint Algorithm

Algorithm Version	AMT v3.0
-------------------	----------

FAR	0.00001 / 0.1%
-----	----------------

FRR	0.00001 / 0.1%
-----	----------------

Matching Speed	< 1.0 s
----------------	---------

Contrast Angle	360 Degree
----------------	------------

Intelligent update function	Supported
-----------------------------	-----------

Fingerprint Recognition Mode	Supported 1:N, 1:1
------------------------------	--------------------
